<b>21. Relevant QAA subject benchmark</b>	N/A			
<b>22. Other External Reference Points</b>	FHEQ level 7			

### 23. Aims of programme

The MVetMed programme aims to produce graduates that:

- Are able to satisfy the credentials requirements and pass the examinations of their European or American Veterinary Specialty Colleges.
- Have the relevant speciality specific experience and expertise in clinical veterinary medicine or veterinary pathology, including being able to demonstrate self-direction and originality in tackling and solving problems when appropriate.
- Demonstrate a systematic acquisition and understanding of a substantial body of knowledge which is at the forefront of their specialties discipline or area of professional practice.
- Are able to deal with complex clinical issues both systematically and creatively, make sound judgements, sometimes in the absence of complete information or in light of unforeseen problems, and communicate their conclusions clearly to specialist and non- specialist audiences.
- Are of the highest quality, with additional personal, communication, teaching and professional skills, poised to take up leading positions as veterinary clinicians or pathologists in academia worldwide, in private practice, or in industry, where they will continue to advance their specialty knowledge, skills and understanding.
