7

23. Aims of programme

The programme aims to produce graduates:

- Eligible to use this award as a prerequisite for entry into European or American Veterinary Specialty Colleges
- Eligible to apply for a residency / senior clinical training scholarship (MVetMed/Professional Doctorate or equivalent programme)
- with critical analysis skills and experience in literature review and interpreting clinical research
- with excellent communication and small group teaching skills, who are able to take advantage of current developments in information technology
- With excellent clinical, non-clinical and transferrable skills, including reflection and self-directed learning, and able to provide standard of care patients' and clients' management in primary practice

24. Overall Programme Level Learning Outcomes - the programme offers opportunities for students to achieve and demonstrate the following learning outcomes. Learning outcomes should be specified for all intermediate awards as well as for the terminal award.

Knowledge and understanding of:

- clinical disciplines to a level higher than an undergraduate
- pathophysiological principles related to the species and clinical context
- related clinical disciplines
- basic analysis of clinical or laboratory data
- ethical and welfare issues relating to clinical practice, teaching and research
- new developments in the relevant area of clinical expertise

Modules in which each learning outcome will be developed and assessed:

All modules will develop and assess the learning outcomes.
