

Annual Report and Financial Statements 2019/20

I am pleased to present the Royal Veterinary College's (RVC) Annual Report and Financial Statements for the year 2019/20. This has been my first year as Chairman of Council and what a year!

Drawing a line in the sand in the middle of a pandemic, as our Financial Year reporting deadline requires, has been an interesting exercise with uncertainty and change pervading all of our operations. That we are able to look back on the last 12 months with some degree of satisfaction is comforting, as these foundations will be critical in the coming years as we forge our recovery in what is a vastly altered environment for Higher Education.

With nearly half of the period under report affected by the spread of COVID -19 through society, there is no doubt that several elements of our performance have been under pressure. However, with a precautionary approach, the RVC has, thus far, managed the crisis and navigated a course that has delivered an outcome in li ne with budget for 2019/20 and set a more positive trajectory than the more conservative scenarios in our mid-year financial modelling had indicated. That said, with the financial pressures that predated COVID-19, the ture from the

EU, and with a range of new calls on our resources, there is much work to be done to maintain the sustainability and levels of investment that we know are required for long term success.

Addressing these challenges has required enormous effort, patience and understanding from all at the RVC our staff, our students, my colleagues on Council and, importantly, our external stakeholders.

In particular, the shift to blended delivery of our teaching and the adaptation of hospital processes to maintain our clinical services, accompanied by the

required significant additional outlay on many of our systems. If ever proof was needed that remote learning was not a cheap option, this has provided it.

Throughout, we have remained committed to our standards in all areas of our business as it will be the maintenance of these markers of quality that will allow RVC to continue to deliver to its mission locally, nationally and internationally. We do not underestimate the challenges ahead and remain alert to how rapidly the situation can change. We will continue to adopt a precautionary approach, with the health and safety of our community at the forefront of ourThroughout, we havetinwith tocauTf 1 0 (tted0

Context and Risk Analysis

Founded in 1791, the Royal Veterinary College (RVC) was the first of its kind in the UK and remains the only independent Higher Education institution dedicated to teaching and research in the veterinary and allied sciences, whilst also benefiting from being a member institution of the federal University of London. As one of the largest veterinary schools in Europe, RVC also provides the most extensive veterinary, para-veterinary and animal science undergraduate and postgraduate courses of any veterinary school in the world.

refreshed and are set out in its extended Strategic Plan to 2021 The three pillars of our mission are: Education, discovery and translation of new knowledge and delivery of optimal clinical care and opinion. Above all, the RVC seeks to push back the frontiers of what is possible in veterinary medicine and its associated sciences.

The College has adopted a range of Key Performance Indicators to assess its progress against its Strategic Plan. Areas covered include: student recruitment, retention and employability; improving the student expe.1 434.5t54.5atence

and diversifying the support we provide to meet the needs of this changing student body.

The COVID-19 pandemic has led to more of our student support services being delivered online and this has proved effective in providing students more choice and opportunity to access these services. Significant work has been done by widening participation and recruitment teams to further increase applications and admission from under-represented groups to reach the ambitious targets we have set nour Access and Participation Plan 202025. Again, the move to online activity has resulted in a significant increase in outreach and engagement with students from these groups.

The pandemic has also strengthened the collaborative work between the College and the

initiatives, in particular the Race Equality Task Group, which aims to raise awareness of race equality issues across the RVC community.

The establishment of the Learning and Wellbeing Director ate has focused our efforts in supporting all students to reach their potential through managing their health and wellbeing. Combined with a sustained programme of enhanced student engagement and representation, this has reinforced the place of the student at the centre of our mission. This strategy is continuing to have a

were proud to be ranked second in the world among veterinary educational establishments by the prestigious QS rankings. This evidences the high quality of the educational experience we offer.

Our Research and innovation

Acquisition of funding for research remains strong, in particular our ability to attract funding from medical sources for public health and translational research involving large animal experimental models and veterinary patients. The total value of grants and contracts awarded during the 2019 calendar year was £16.5m, which is a record total for the RVC and includes two UKRI Hubs. Grants awarded to date in 2020 (£12.0m in the first 8 months) show continued successes both in the Global Challenges Research Fund (GCRF) competitions, COVID -19 emergency funding and from new academic appointments made in strategically important areas targeted for the Research Excellence Framework(REF) 2021. The College has also had recent success in securing capital grant funding (£2.1m) from the Hertfordshire Local Enterprise Partnership for a Translational Research Centre (including a 3T MRI) and £1.25m from the Wolfson Foundation towards the development 871 0 595.32 841.(41.92 re W*Q-1

recognise that, in order to succeed, we need to attract, develop and retain a highly skilled workforce from a range of diverse backgrounds to work in a collaborative and supportive way in line with the RVC Behaviours Framework.

Employment strategy is considered by the RVC Council, through the Finance and General Purposes Committee and the Remuneration Committee. In addition, regular meetings are held between management and Recognised Trade Unions (RTUs). The College strives to work collaboratively and constructively with the RTUs locally and contributes nationally to the aims and objectives of the Universities & Coll eges Employers Association through participation in annual consultations about national pay award negotiations and other matters.

The RVC values its highly skilled workforce and supports positive and proactive engagement with its Behaviours Framework as part of a commitment to professionalism and personal development at all levels. It offers a broad range of personal, professional and skills-based development opportunities through a structured annual programme including leadership and management, health and safety and wellbeing. Due to the COVID-19 restrictions, many training courses have been adapted in order to facilitate remote delivery. Specific training and networking monitors leading and lagging KPIs including

Equality Impact Assessments

and risk assessments to cover both employees working fro m home and planning for the phased

depreciation impact. Operating cash flow in 2019/20 was £13.4m, representing 13.3% (2019: 12.3%) of

STRATEGIC AND FINANCIAL REVIEW continued

distorted by the impact of the reporting of movements in the valuation of the pension provision. The overall movement on this was a credit of £9.9m in 2019/20 compared to a debit of £12.9m in 2018/19. Adjusting for these items, expenditure was £100.1m: an increase of £4.3m (4.5%) which is explained in the following paragraphs.

Staff costs excluding the pension provision adjustment, were £57.8m, increasing by 6.8% on the prior year, representing 53% of turnover (2019: 53%). The increase was a combination of incremental pay progression, a 2.0% rational pay award, the full year effect of a 1.5% increase in the USS employer contributions from April 2019 and a further increase of 1.6% in October 2019. In addition, staff numbers, expressed as Full-Time Equivalents (FTEs), increased by 2.6% to 961. The increase was primarily due to fixed-term staff working on externally funded projects.

Other operating expenses at £32.8m, reduced by 3.8%. Of this, 1.2% (£0.4m) was due to a reclassification of amortisation costs under

remainder is attributable to a reduced volume of activity, notably in the hospitals, in the latter part of the financial year due to COVID-19. Cost savings also arose from campus depopulation and curtailment of travel and events.

Depreciation and amortisation costs increased by 31% to £8.3m. Of this, 8% was due to the aforementioned reclassification of amortisation costs. The remainder of the increase pimarily relates to completion of the major refurbishment works at the Camden campus as well as the purchase of clinical and research equipment and investment in IT. Amortisation costs (£0.4m) represent the write-off over a 10-year period of goodwill relating to the acquisition of A corn House Veterinary Hospital through RVC Veterinary Practices Ltd.

Interest and other finance costs, at £1.6m, include interest charges (£1.2m) relating to external financing (£45m pri9.96 Tf 0x96 Tf s (£1.2m) relating 7s16)re£454ut

susceptible to infection with the virus causing Peste des Petits Ruminants (PPR) is informing the Food and Agriculture Organiz Eradication Plan for PPR.

The College is active in research to develop new vaccines for poultry and pigs; both major food - producing species globally. By reducing the need to

Knowledge Quarter to deliver local activities in central London and we also attend science fairs and community festivals in local areas and public festivals around the country. It is the intention that this work will continue in both a virtual and face -to-face format.

We work in collaboration with numerous partners to deliver education for the common good. Such partners include: The Royal Society, Francis Crick Institute, Wellcome Tr ust, Natural History Museum, Royal Society of Biology, Society of Physiology, and the Royal Society of Chemistry.

We are continuing to build on our local community engagement particularly working to build stronger relationships in Welwyn Hatfield to build on our more established programme in Camden. Our audiences include local residents, schools and community groups. Prior to COVID -19 and the

STATEMENT OF RESPONSIBILITIES OF THE COLLEGE COUNCIL in respect of the Annual Report and the Financial Statements for the year ended 31 July 2020

The Council is responsible for preparing the Annual Report and Financial Statements in accordance with the

s of Research England grant and applicable law and regulations.

statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland. The terms and conditions of funding further require the financial statements to be prepared in accordance with the 2019 Statement of Recommended Practice Accounting for Further and Higher Education, in accordance with the requirements of the Accounts Direction issued by the Office for Students. The Council is required to prepare financial statements which give a true and fair view of the state of affairs of the Group and parent College and of their income and expenditure, gains and losses and changes in reserves for that period.

In preparing the Group and parent College financial statements, the Council is required to:

- x select suitable accounting policies and then apply them consistently;
- x make judgements and estimates that are reasonable and prudent;
- x state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- х
- matters related to going concern; and
- x use the going concern basis of accounting unless they either intend to liquidate the Group or the parent College or to cease operations, or have no realistic alternative but to do so.

The Council is responsible for keeping proper accounts and proper records in relation to the accounts. It is responsible for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and has general responsibility for taking such steps as are reasonably open to it to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

The Council is also responsible for ensuring that:

- x funds from whatever source administered by the Group or the College for specific purposes have been properly applied to those pur poses and managed in accordance with relevant legislation;
- x funds provided by the Office for Students and Research England have been applied in accordance with the terms and conditions attached to them;
- x there are appropriate financial and management controls in place to safeguard public funds and funds from other sources; and

The Council is responsible for the maintenance and integrity of the corporate and financial information included

statements may differ from legi slation in other jurisdictions.

ensuring it operates in accordance with identified good practice in all aspects of its corporate governance. The RVC is confident that for the year ended 31 July 2020 it is fully compliant with all those elements of the Higher Education Code of Governance issued by the Committee of University Chairs (CUC) in December 2015 and revised in June 2018. It continues to monitor and ensure that its compliance with the Code is as effective and efficient as it should be and that recommendations are not only met but exceeded, where considered appropriate. In accordance with the CUC Code, the RVC has adopted a Statement of Primary Responsibilities as part of its governance arrangements. The RVC, through the management and governance arrangements detailed below also monitors compliance with, and maintains appropriate controls to ensure that it meets, the conditions of registration with the Office for Students (OfS), as well as other relevant regulatory responsibilities.

The Royal Veterinary College (RVC) is committed to

31

The Council of the RVC has an on-going process for identifying, evaluating and managing significant risks relating to the delivery of institutional strategic and operational objectives. This process has been in place for the year ending 31 July 2020 and ϕ to the date of the Council's approval of the Annual Report and Accounts. The risk register is subject to regular review by the Council and is available to the Council members at every meeting.

The RVC can trace its history as a corporate body back to 1791 and is an independent body, whose legal status derives from its Royal Charter. Its objects, powers and framework of governance are set out in the Charter and its supporting Statutes, which were most recently revised in 2010 and are currently still pend ing approval by the Office for Students (OfS) and Privy Council following recent revisions arising as a consequence of amendments to the

University title.

The Charter and Statutes require that the governance of the RVC shall be vested in the Council, which, as the governing body, is collectively responsible for overseeing the institution's activi00008871e11(i)-9(0n)4(g)35(th

Statement of internal control

The Council, as governing body, is responsible for ensuring that the RVC has a sound system of internal control and for reviewing its effectiveness. Such a system is designed to understand and manage rather than eliminate the risk of failure to achieve business objectives and can only provide reasonable and not absolute assurance against material misstatement or loss. The risk management process covers business, operational and compliance risks as well as financial risks.

The College's system of internal control, which is designed to discharge the responsibilities set out in the Statement of Responsibilities of the Council, includes the following elements:

- x clear definitions of the responsibilities and delegated authority of heads of academic and administrative departments;
- x a comprehensive medium and short-term planning process, supplemented by detailed annual income, expenditure, capital and cash flow budge ts;
- regular reviews of academic performance and monthly reviews of financial results involving variance reporting and quarterly updates of forecast outturns;
- x clearly defined and formalised requirements for approval and control of expenditure, with investment decisions involving capital or revenue expenditure being subject to formal appraisal and review according to approval limits set by the Council;
- x Financial Regulations, together with supporting financial policies and procedures, approved by Finance & General Purposes Committee and/or Audit Committee as appropriate; and
- x a professional Internal Audit team, provided by an external firm, whose annual programme is approved by the Audit Committee, and endorsed by Council. The Head of Internal Audit provides Council with an annual report on internal audit activity within the College, and a view on the adequacy and effectiveness of the College's system of internal control, including internal financial control.

Planning of both external and internal audit work i s risk-based informed by the Strategic Risk Register. On the recommendation of Audit Committee, the Council has adopted a revised Risk Management Annual Report and Financial Statements 2019/20 approach to risk management. It ensures that key risks are identified and managed appropriately, and that risk management is integrated with planning activity, operational plans and performance monitoring.

In accordance with the Strategy and Policy:

x the Council has charged Audit Committee with keeping the integrity and effectiveness of the

which duty is discharged by regular oversight of the Strategic Risk Register; and

x the College Executive Committee supports the Principal in discharging the responsibility for implementation of the Strategy and Policy as well as ensuring that risk management is embedded in strategic and operational decisionmaking processes. It also ensures ownership of risk management throughout the organisation (including the identification and manage ment of risks) and regularly reviews strategic and operational risk registers.

During the year, the College re-tendered its audit services. BDO have been appointed as external auditors commencing with the 2019/20 audit. KPMG are the new internal auditors with effect from the 2020/21 financial year.

The Audit Committee, on behalf of the Council, has reviewed the effectiveness of the College's system of internal controls, and found it provides reasonable assurance against material misstatement or loss. Given the potential for increased risks to internal controls due to alternative working arrangements during the pandemic, Audit Committee charged

financial governance during COVID -19. This gave an assurance rating of $ce' \cdot - ' \cdot ' cE \check{S} - \cdot 1 \check{S} ce ce \check{z} \cdot \check{S} - cE$ $<math> ' - \top \wedge \cdot \ddot{Y} \check{Z} - \check{Z} - \cdot 1 \tilde{T} \top \top \tilde{T} \tilde{T} \cdot \dot{Z} - \dot{Z} : \dot{Z} : ce' \check{Z} : \dot{Z} : ce' \check{Z} : ce'$

The Council ensures there are adequate and effective arrangements in place to manage public funds appropriately in line with the conditions of grant and the principles of regularity, propriety and value for money and to protect the interests of taxpayers and other stakeholders. This is achieved through the operation of policies which are regularly tested by internal and external audit or other internal monitoring with appropriate reports throug h to the

a. Basis of preparation

These financial statements have been prepared in accordance with the Statement of Recommended Practice (SORP) Accounting for Further and Higher Education, 2019 edition FEHE SORP 2099 accordance with Financial Reporting Standards (FRS 102).

RVC

benefit entity and therefore has applied the relevant public benefit requirements of FRS 102.The financial

Revenue grant funding

living animals or plants held as assets from which economic benefits flow to the RVC.

Agricultural produce is the harvested product of a biological asset. The RVC

support student learning include breeding sheep which are stated at fair value. The values held for these assets are not considered material for separate disclosure as a non-current asset and are shown as a current asset within Farm stocks. Changes in fair value less costs to sell are recognised in the statement of Comprehensive Income.

Other stocks are stated at the lower of their cost and net realisable value. For practical purposes, it is assumed that net realisable value is the same as either the cost charged on to external customers or the cost of the equivalent item most recently purchased. Stocks are valued at the lower of cost and expected selling price. Stock counts are carried out as close to the year end as is practically feasible with estimates for stock movements being used where appropriate.

Stocks of consumables held for administrative purposes and in academic departments are expensed during the year and are not valued on the Statement of Financial Position.

t. Cash and cash equivalents

Cash includes cash in hand and deposits repayable on demand.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with insignificant risk of change in

The freehold land comprising the Royal Veterinary College estate was valued as part of a valuation of land and buildings as at 31 July 2014 by an external valuer, Gerald Eve LLP, a regulated firm of Chartered Surveyors. The valuation was prepared in accordance with the requirements of the RICS Valuation - Professional Standard&anuary 2014 amendment, and April 2015 UK amendment and Financial Reporting Standard 102 and the 2014 Statement of Recommended PracticeAccounting for Further and Higher Education. The valuation was undertaken on a Fair Value basis, with specialised properties valued by reference to Depreciated Replacement Cost, and with non-specialised properties valued on a Fair Value basis equating to Market Value on the assumption of a continuation of the existing use. The valuation was reported under the special assumptions to exclude any value of development opportunities for which planning permission would be required and has not been granted or where development has not yet commenced.

NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 July 2020 Continued

37.

The technical provisions assumptions include appropriate margins to allow for the possibility of events turning out worse than expected. However, the funding method and assumptions do not completely remove the risk that the Technical provisions could be insufficient to provide benefits in the future.

A formal actuarial valuation of SAUL is carried out every three years by a professionally qualified and independent actuary. The last actuarial valuation was carried out with an effective date of 31 March 2017. Informal reviews of

carried out between formal valuations.

The funding principles were agreed by the Trustee and employers in June 2018 next formal valuation in 2020.

At the 31 March 2017 valuation SAUL was fully funded on its Technical provisions basis so no deficit contributions

rate of 16% of CARE salaries.

Accounting policy and costs reflected in ReC œ 1 Š Œ Œ ~ ž — • œ

The RVC is a participating employer in SAUL. The actuarial valuation appl ies to SAUL as a whole and does not identify surpluses or deficits applicable to individual employers. As a whole, the mark £3,205 million representing 102% of the liabili ties for benefits accrued up to 31 March 2017.

It is not possible to identify a n individual e

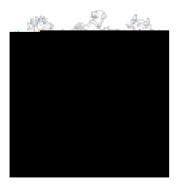

RVCî îf"-"n¿)ñ

accounts for its participation in SAUL as if it were a defined contribution scheme and pension costs are therefore based on the amounts actually paid (i.e. cash amounts) in accordance with paragraphs 28.11 of FRS 102.

As there was a technical provisions
